Education

IIE Rosebank College
Cape Town
NQF Level 6 Diploma in IT Software
Development
Average: 70%

Key Skills

Digital Research
Adaptability
Creative Thinking
Communication
Problem-solving

Hi there!

My name is Koketso, I hold a NQF level 6 Diploma in IT Software Development and am currently enrolled for an Advanced Diploma in Application Development at the IIE Rosebank College. I am skilled in Java, Kotlin and SQL.

Technologies

Kotlin
Mobile Applications

SQL
Databases

Java
Backend Development

I actively participated in project planning sessions, where I collaborated with team members to define project goals, tasks, and timelines. I played a key role in coding and programming tasks, ensuring the implementation of high-quality and efficient code. I contributed to regular team meetings, providing updates on my progress, discussing challenges, and seeking feedback from peers. I also engaged in thorough testing and debugging processes to identify and resolve issues promptly.

Communication

I'm skilled in communicating technical ideas in a way that's easy to understand. I'm good at talking with different teams and sharing updates about projects. I can explain things clearly, whether it's in meetings, writing documents, or helping out. My communication skills help me work well with both technical and non-technical people, making sure everyone is on the same page for successful software projects.

Leadership

As a software development graduate, I bring leadership qualities to the table. I have experience guiding and motivating team members, fostering a positive and collaborative atmosphere.
